Dear Sirs, Please reject NAB's petition 04-160. We are subscribers (i.e. we pay for the service) to satellite radio and enjoy it very much. It has more variety than we can possibly get in Yuma, AZ. We are 180 miles from Phoenix and San Diego and the few radio stations we have here are either hard rock and rap, country, or talk radio. Yuck! With satellite radio we can listen to jazz, classical, different decades music, a blend of soft music, comedy, and news whenever we want. Please don't limit what we can listen to.
